Work History:

React Web App Developer || W3aSolutions && August 2022 - Present && Remote.

I'm working as a React Web App Developer at w3aSolutions on a contract basis. My primary role is writing project proposals for would-be clients and developing the first look of a web app. If we get the project approval then I work until it is deliverable.

Technical Analyst cum Junior Executive || Amarstock, Dhaka || 2017-02 – 2020-04 || Onsite

I worked with Amarstock for **3 and a half** years. In Amarstock I played a double role. My primary job was to train people how to use the **amarstock.com** web app and what they would get from that site. Besides this, I also worked as a junior executive, in **administration**.
